Mr. Morrill, Chairman, presided. Mrs. Holland, Register of Deeds, explained the effect in her department of the pending legislation on the increase of the transfer stamp. She expects her consolidation program to be completed in 1971. Mr. Howard, the Register of Probate, came to speak about his department. Mr. and Mrs. Hilton reviewed the County Home and Hospital Budget.

After the heads of the various departments had been heard, and a recess for lunch at Taylor's had been enjoyed, the commissioners were excused while the committee discussed salaries. Because of pending legislation, there were many differences of opinions as to exact figures to be proposed at the delegation meeting. Rep. Gay made a motion, seconded by Rep. The discussion continued until 3:20 at which time the meeting adjourned with the bad storm then in progress being blamed for the restlessness of the members. A meeting of the Executive Committee was held on Oct. 20, 1969. Present were Representatives Leavitt, Sewall, Casassa, Spollett, Palmer, Maynard, Shindledecker, Gay, Dame, and Weeks. Commissioners Hall and Brown were also present.

Rep. Charles Gay the newly appointed chairman of the Finance Committee presided. Each item of expenditures for the third quarter was considered in detail, also the receipts to Oct. 1, and approved as printed.

With this explanation, on motion by Miss Spollett, seconded by Mrs. Palmer, it was voted to authorize the County Commissioners to make necessary transfers of unexpended funds from one department to another.

A moment of silence was observed in honor and memory of Roy Morrill our deceased chairman.

A report was made by Mr. Samaha, Clerk of Superior Court on the anticipated deficit.

The Commissioners commented on the O.E.O. report on the poor in N.H. which has occasioned so much publicity recently.

On motion by Rep. Casassa, seconded by Rep. Leavitt, the meeting adjourned at 11:50 A.M.

COMMISSIONER'S REPORT

The Rockingham County Commissioners are required by statute to submit the annual report of its County Officers for the year of 1969.

We may be a peculiar kind of people but we just happen to believe in the people of Rockingham County. We are proud of the local government that is given to the towns and city by the dedicated town officials. We are proud of the many fine firsts that only Rockingham County claims. We are proud of the fine record that your County Government has maintained over the years, and we believe that if those who express a negative, destructive attitude towards County Government would extend their efforts in helping us to go forward with a better form of County Government, the people of this county would live in a better Rockingham County.

Rockingham County the second fastest growing county in the United States will, in the years to come encounter many problems that only a united effort by all of its people can solve. The problems of crime, the aged, the welfare, of pollution, of open burning and dumps, of industrial development are only a few that can best be solved by an unselfish effort of towns, city and county working together. No longer can any one town or city ignore the needs of its neighboring town.

We wish to extend to our entire county organization our deepest thanks for their loyalty and devotion during the past year. To the many volunteer people and organizations who give so generously of their time so that the people in our County Home may be a little happier. To the Mutual Aid Fire Departments that have worked so hard to insure us proper fire protection. To the Rockingham County Delegation, without their aid and confidence we could never maintain our number one position in New Hampshire.

FOREWORD

A cost analysis of the Rockingham County Home and Hospital has been undertaken to the end of establishing the reasonable costs of providing service as is generally defined and accepted under Public Law 89-97. The resulting patient day costs as shown would adequately serve as interim rates for any of the existing federal or state programs that are administered on the basis of reimbursable cost.

Respectfully submitted,

Duane L. Keeler

TO THE HONORABLE BOARD OF COMMISSIONERS OF ROCKINGHAM COUNTY

Gentlemen:

With the realization that a good medical program in our present day thinking embraces many facets of care - all centered about the dignity of man - the medical staff has tried to work in close cooperation with an excellent nursing staff to the end that all patients may feel that it is a privilege to be here in the Rockingham County Home and Hospital.

To many it is the end of the road but to these nothing is spared in good nursing care as is apparent by the very low incidence of bed sores.

The rehabilitation program developed mostly through the effort of Mr. Hull has continued to progress. Mr. Hull has left for administrative work in New York and Mrs. Lynn Miller has taken his place until February 1970. Mrs. Jean Butler has joined the staff as full-time occupational therapist. Because of this program the Rockingham County Home has been able to discharge four patients back to their own family.

The loss of Dr. John W. Blaisdell through illness has placed a greater burden on the staff but the addition of Dr. Hugo Hochschild to the medical staff and Dr. Charles Kurth as head of the rehabilitation program has helped to make this burden lighter. Dr. Charles DeLuccia resigned from the staff as of December 19, 1969, to devote more time to his practice. Dr. Edwin Lee has recovered from a recent operation and is back with us again. A speech therapist has been added to our rehabilitation program on a one day a week basis.

To facilitate the work of the medical staff the hospital has been presented a new EKG machine by the "Kitchen Kut-Ups" which is accepted most gratefully. Miss Anne Floyd has left as Mrs. Dodge's assistant to join the Intensive Care Unit of the Exeter Hospital, her position being ably filled by Mrs. Barbara Nichols. The rehabilitation staff plus physiotherapist, the visiting nurse from the Exeter Visiting Nurse Ass'n. in Exeter, and Commissioner Russell Hall, were chosen along with seven other teams from the United States, our team being the only one from New England, to participate in a three day regional medical program workshop in Washington, D. C. last spring which gave us considerable impetus in further developing our program here. It is obvious from the number now waiting to be admitted to the home and with the population growth that the time is not far away when new facilities and more medical and nursing personnel will be needed to meet the demands.

It is hoped that in the coming year some means may be found to facilitate the transport of all prisoners needing medical attention from the jail to the emergency treatment room in the Mitchell in order to relieve the nurses and doctors and make it possible to see more patients.

The morale of the medical and nursing staff is high and with continued cooperation and support of the Commissioners and Administration, the new look in the care of the geriatric patient can be maintained.

Very truly yours,

Hermann N. Sander, M.D.
Medical Director

CHAPLAIN'S REPORT

To the Superintendent and County Commissioners of
Rockingham County Home and Hospital

I respectfully submit the following summary of religious care to the Catholic residents and patients of the County Home and Hospital, provided by me from January 1, 1969 through December 31, 1969.

First in concern were sixteen patients who, because of their grave condition, required the administration of the Sacrament of the Sick.

Each month of this reporting period, an average of twenty-six Catholic residents and patients received Holy Communion. An estimated equal number of Confessions were heard.

In addition, pastoral visits were made averaging about two per month. On other occasions, religious articles and calendars were distributed.

Worthy of note, was the celebration of a Catholic service on Easter Sunday of last year, in the recreation hall of the Home, complete with acolytes and choir. Equally noteworthy, was the feat of moving bed-ridden patients, performed by the nursing personnel, to the site of the religious service.

I close this report of religious and spiritual activities among Catholic residents and patients with an unsolicited expression of personal appreciation for the cheerful and willing cooperation extended me by you, your staff, nurses and attendants during the past year.

Sincerely Yours,

Rev. L. A. Langevin, Pastor
St. Joseph Parish

ADMINISTRATOR'S SUMMARY

This has been a year of good, steady, sound progress in continuing to develop a therapeutic concept of rehabilitative care to meet the total needs of 215 patients. This progress is evidenced by the addition of speech therapy through the cooperation of the Portsmouth Rehabilitation Center; a Social Service Department, under the supervision of Mrs. Myrtle Woodward; retaining the professional services of Dr. Charles Kurth as a physiatrist, to more completely up-grade the Physical Therapy Department; and the creating of a department pertaining to the religious needs under a Director of Spiritual Life, Reverend Robert Lewis.

We no longer can consider our role adequate in caring for patients in part, but must recognize their needs as a human being in total. This philosophy offers and maintains the dignity of man.

REGISTER OF DEEDS REPORT

January 15, 1970

To the Honorable Board of Commissioners
of Rockingham County:

The past year was one of continuing achievement and progress for this office.

Nineteen thousand Seven hundred twenty-one documents concerning real property in the thirty-six towns and the city within the boundaries of Rockingham County were filed and became a part of the permanent records of the Registry of Deeds. Copies of all these recordings, as well as those documents recorded from 1643-1968, are available immediately from the microfilm file. The use and availability of this microfilm file is not only a welcome service to the public, but provides additional income to defray the expenses of operating this office.

The year 1969, particularly the latter part, was one of "tight money" which meant that the amount of available funds to finance purchases and improvements to real estate was very limited. There were, therefore, many less recordings of mortgages and deeds than usual and far fewer than had been anticipated. However, because of the increasing sales of copies made possible by having established a microfilm file, the total receipts of the Registry of Deeds, all of which were paid to the County Treasurer, increased to \$104,714.46. This was approximately \$2000.00 more than had been estimated in the budget.

My staff and I review the work produced in this office during 1969 with a feeling of achievement and accomplishment which we gratefully appreciate was only possible with the wholehearted support of the County Commissioners and the County Delegation.

Edward J. Howard, Register

TO THE HONORABLE BOARD OF COMMISSIONERS OF ROCKINGHAM COUNTY

The year of 1969 has been both rewarding and challenging as my first term as Register of Probate. My first concern has been to serve the public in an efficient and expedient manner as has been the custom in past years.

The County Commissioners and the Delegation have been most cooperative in discussions regarding the budget and with the suggestions made and the purchase of additional office equipment brought about by the increased workload due to Legislation and population increase.

We have increased the number of working hours, purchased additional files and are now in the process of adding a new alpha index system. On January first a new index file will be started concluding one hundred years for the present index.

We have had thirty volumes dating back to the 1770's rebound and will, over a period of time, have others done that have become damaged due to handling.

During the last fiscal year, this office handled over one thousand three hundred and eighty new cases and due to the new Legacy Tax Law, the ensuing year will far exceed that amount.

It has been my pleasant duty to meet with the other Registers of Probate in New Hampshire throughout the year to help set up uniform methods and the use of related forms pertaining to this office.

We strive to meet the individual needs of the public who come to us for aid, yet not infringe on the services offered by the attorneys and we are ever mindful of the duty of the Probate Office as being recorders of records of the Court.

I am looking forward to serving the second year of my term as Register and wish to express my thanks and appreciation for the fine cooperation received from all the County Officers.

Respectfully submitted,

Edward J. Howard

COUNTY ATTORNEY'S REPORT

Board of Commissioners
Rockingham County Justice Building
Exeter, New Hampshire 03833

Gentlemen:

From July 31, 1968 to July 31, 1969, 447 new criminal cases were instituted or entered in the Superior Court and added to the 183 criminal cases which were already pending. 438 of these cases were disposed of. In addition, 107 Uniform Reciprocal Support cases were processed, of which 69 were responded to and 38 initiated. In 1969, 2 homicide cases were tried and one is still pending. There were 234 new criminal appeals entered in Superior Court from District and Municipal Courts from July of 1968 to July of 1969 (misdemeanors) and 168 new felonies.

In 1969 the County Attorney's salary was raised from \$4,500 to \$9,000 through new legislation passed by the General Court in Concord. This is, of course, greatly appreciated and it is hoped that further necessary changes will be made soon. National statistics indicate that there should be at least one prosecutor for every 50,000 people. Rockingham County has a population now in excess of 140,000 but has only one County Attorney to prosecute cases with no assistance. Local police, in most instances, must draft their own warrants and complaints and prosecute their own cases in the lower courts where they are opposed by experienced defense lawyers. Many cases are lost for this reason and the experience is also demoralizing to law enforcement generally. The situation is critical and appropriate legislation, funds and personnel should be provided. The County Attorney should be on a "full-time" basis with full compensation and adequate staff. It is, indeed, unfortunate that the criminal defendant may have competent counsel at all critical stages and one provided for him if he is indigent but a similar protection is not afforded the police and prosecution.

One of the most encouraging programs to be instituted in the field of law enforcement in Rockingham County in 1969 was the establishment of the Rockingham County Crime Commission, which is federally funded under the "Omnibus Crime Bill." This Commission has membership drawn from all areas of the County and has been studying law enforcement problems and making recommendations for improvement. We have here an opportunity to take positive action and to practice preventative law enforcement. Several programs have already been started.

Respectfully submitted,

Glen E. Graper
Rockingham County Attorney

**ROCKINGHAM COUNTY
SHERIFF'S DEPARTMENT**

George Sampson, Sheriff
Justice Building
Exeter, New Hampshire

To The Honorable Board of
Rockingham County Commissioners

Gentlemen:

Since 1876 when the Rockingham County Jail was established in Brentwood the rate of crime and persons apprehended for those crimes has steadily climbed. The population of Rockingham County has increased by some forty thousand during the past ten years, crime has increased in proportion to the influx in population, larger and better trained law enforcement officers have been responsible for the apprehension of more criminals during the past decade. Yet we have the lowest number of convicted criminals serving time, either at the Rockingham Jail or House of Correction. And an even lesser number who are sentenced to the State Prison.

The time and painstaking effort on the part of law enforcement officers and the cost to the taxpayers, involved in the apprehension of criminals would appear to be wasted when the suspect appears before our courts and in the majority of cases, has his case continued for sentence and is placed on probation and is once again free to pursue his career of crime. "Repeaters" are the rule not the exception.

This is a national situation that faces all law enforcement and it would seem that our entire judicial system could well stand strict revisions in their methods of handling criminal cases. All law enforcement agencies are well aware of the fact that those apprehended for the commission of a misdemeanor and lightly chastised by the courts continue on to larger and more serious crimes. That they "get away" with a lesser offense is practically an incentive to see just how far they can go.

After observing the fallacies of the current system during the past eleven years as sheriff of this county it is my firm opinion that the leniency of both the boards of probation and the courts are largely responsible for the continued rise in the crime rate. The prevalent practice of placing offenders on probation is a poor example to set before those who might contemplate an act of crime. Surely punishment, swiftly and justly metered out, would prove a deterrent to crime if the would-be offender was fully aware of the fact that he would be punished and not simply placed on probation.

In accordance with the hold-the-line policy we are maintaining our present force, endeavoring to serve in every way possible the people of the County and all law enforcement agencies whose cooperation we gratefully acknowledge.

Respectfully submitted,

George Sampson,
Sheriff

Narrative Report

This is a new program and what has been done so far is only a beginning. There has been excellent cooperation from every one - Commissioners, clergy, young people, staff and especially the Administrator whose interest and advice have been very encouraging. The regular religious services from 2:00 to 2:30 on Sunday have held the interest of the residents (average attendance 26) and the Plaistow youth group have been extremely faithful in coming and helping bring the residents to and from their rooms. As regards the Catholic services, I have talked several times with Father Langevin, the Catholic priest in charge of the County Home, and he prefers to continue with private communion and confession and a service at Easter as in the past.

Since this is the first program of this type in the state, so far as County Homes are concerned, I have talked with the Reverend Frank Gross, Executive Secretary of the State Council of Churches and with Linnea Staples of the Manchester Union Leader about it. Both are very much interested. Reverend Mr. Gross has already written, expressing a desire to help and has taken steps to publicize the program among the churches of New Hampshire. Mrs. Staples has offered to prepare two articles about the program for the Manchester paper, though she cannot guarantee when they will be used.

The Administrator has provided an office which I have not used as much as yet as I hope to eventually for conferences.

While much of the eight hours a week that I put in has gone so far for learning the program is organized and running smoothly there will be sufficient time to visit individual residents and make contact with their home pastors. This does not mean that there is not work enough for a full time Director for the more time there is the more there is that can be done. Since this is a first for the State there is much to be learned but it is a first because of the vision and sympathetic understanding of the needs of the residents by the Administrator and the active cooperation of the Commissioners. Rockingham County is to be congratulated on having leadership of such quality.

Robert Lewis, Director
Dept. of Spiritual Mission

**ROCKINGHAM COUNTY
HOUSE OF CORRECTION & JAIL**

Brentwood, New Hampshire

To The Honorable Board of
Commissioners of Rockingham County

Gentlemen:

Having recently been appointed in charge of the Rockingham County Jail and House of Correction, I wish to submit a condensed report of the activities and conditions of this institution.

In the past there has been a considerable turn-over of Correctional personnel; however I am pleased to report that during the past year there has been little change in personnel, and as a result the institution is now staffed by well-trained and dedicated Correction officers capable of carrying out their assignments with a minimum of supervision. This also contributes to better security and prisoner relations.

Mr. Anderson, of the Federal Bureau of Prisons, on his annual visit, was lavish in his praise of the physical appearance of the building and the efficiency of management displayed. A continuing program of cleaning, painting and altering of facilities has resulted in this institution being a model for other counties to emulate. The plumbing facilities are in dire need of a drastic overhaul, and at present is our only major maintenance problem.

Respectfully submitted,

Frank H. McLeavy
Superintendent

ROCKINGHAM COUNTY HOUSE OF CORRECTION & JAIL

Prisoner recreation has been enhanced by the acquisition of two television sets, one for the sentenced prisoners, and one for the bound-overs. A new antenna was recently installed, and now these two television sets are a major source of entertainment. A ping-pong table in the recreation room has been a valuable outlet for excess energy.

Security has been tightened by the installation of a closed-circuit television covering the dining area. This gives the officer in the control room visual, as well as audible, control over the door leading to the outside via the tunnel to the County Home kitchen. This door, in the past, was the most vulnerable from a security standpoint. New fencing has been programmed for the exercise yard, and this will be a welcome security addition.

In closing I would like to take this opportunity to express my appreciation for the cooperation extended us by the several departments of the County Home. Their assistance contributes greatly to the efficient operation of the Jail and House of Correction.

Respectfully submitted

Senior Correctional Officer

ROCKINGHAM COUNTY COOPERATIVE EXTENSION SERVICE

Basically, Cooperative Extension Service work is education. Informal classes are held in homes, churches, farms, fields, orchards, to further the economic welfare of the people in the county. Agents conduct these "classes" in Agriculture, Home Economics, 4-H Youth Development and Forestry. As our name implies, the Cooperative Extension Service is cooperatively supported by Federal, State and County Governments. All Agents are staff members of the University of New Hampshire and are college graduates in their particular field.

The following Agents are carrying on the many and varied programs of Cooperative Extension Service work in Rockingham County:

Edward F. Upham	Agricultural Agent Office Manager
Miss Ruth Stimson	Extension Home Economist
Mrs. Priscilla Walker	Asst. Extension Home Economist
Harry Knox	4-H Youth Development Agent
Miss Lynn Bladen	4-H Youth Development Agent
Stanley Knowles	County Forester
John Conde'	Asst. County Forester

Guidance of the Cooperative Extension Programs is conducted by the State Leaders at the University of New Hampshire and by the County Cooperative Extension Service Council. This Council is composed of 12 persons, 3 representing each phase of Cooperative Extension Service work. The county delegation also designates a member of the Executive Board to act as a council member. The present council is as follows:

Representing Agriculture:

Charles Monahan, East Kingston - Treasurer
Charles Downing, Chester
Bernard Campbell, Salem

Representing Home Economics:

Mrs. Melo Dickason, Chester - Secretary

Mrs. Donna Littlefield, Newfields

Mrs. Miriam Jong, Portsmouth - Chairman.

Representing 4-H Youth Development:

Mrs. Eva Smith, East Kingston

Mrs. Violet Chisholm, Greenland - Vice Chairman

Mrs. Myrtle Syria, Candia

Representing Forestry:

Russell Mason, Brentwood

Herbert Tonry, Hampton Falls

Charles Bowman, Candia

Representing County Delegation:

James Leavitt, North Hampton

AGRICULTURE

The work of the Agriculture Agent is variable. He advises farmers and managers of Agricultural businesses on the best, most economical ways to grow, market, process and use farm products.

The county agent helps farmers solve everyday problems of crops and soils, livestock and poultry, farm machinery and buildings. He stresses farm safety and the safe use of pesticides. Homeowners can get information on problems of lawn, gardens, landscaping, and insect control.

He conveys this information to people through field demonstrations and group meetings, as well as in news media.

Example: A farmer whose alfalfa is turning yellow may think that insects are responsible. He calls the county agricultural agent and asks him to take a look at the field. The county agent believes that the soil, not bugs, is causing the abnormal appearance. He

sends a soil sample to the State Soil Testing Laboratory where tests confirm his suspicion. With this knowledge, the farmer is in a position to correct the soil deficiency — not waste his money killing bugs which were not the real problem.

The county agent helps people develop the resources they have — natural, human, social and economic — to make their community a better place to live.

The County Agricultural Agent is also the Office Manager. In this capacity he assists the Cooperative Extension Service Council in preparing annual budgets for action by the County Delegation. He is responsible for the expenditure of the budget granted. He is also responsible for the clerical assistance and the physical properties that pertain to a highly functioning office.

EXTENSION HOME ECONOMICS

During 1969 trained, volunteer local leaders gave generously of their time and skill in conducting 262 sessions with 3,899 attendance. They supplemented the efforts of the Extension Home Economist, who participated at 197 meetings with 6,784 people. This made a total of 459 meetings with 10,683, which exceeded 1968 total. Thirteen planning meetings and nine training schools with 210 leaders were held to organize county plans with the help of lay people and state personnel.

New methods were tried in field work organization and subject matter presentation when part time assistance wasn't available until December, 1969. Funds were available, and a small portion used to provide extra clerical assistance within the office. With only one full time worker, it was a very busy year with a program based on the availability of 1½ workers.

There were 30 Home Economics Extension groups meeting monthly throughout the county. In addition work was done with the Women's Camp, Rockingham Craftsmen, International Farm Youth Exchange, and County 4-H Dress Revue plus 107 groups outside Extension. These included Women's and Garden Clubs, Church groups, Granges, Community Action Program, Council of

Helping Agencies, Cancer Society, County Home, Libraries, Welcome Wagon Hostesses, T.O.P.S. Clubs, Fire Auxiliaries, Pease A.F.B. and U.S.N. Wives Groups, and commercial firms who assisted with Extension projects.

The Home Economist served as County Extension University Coordinator for the University of New Hampshire for its Outreach Program, and acting Office Manager for a couple of months.

The 1969 subject matter offerings continued to emphasize increasing homemaker's knowledge, understanding, and ability to manage their families resources. These include time, money, energy, knowledge, and ability of family members to meet their needs and wants. Specific objectives were consumer competence, family health, housing, stability, and community resource development through individual and group effort.

Methods used included radio, circulars, bulletin distribution, news articles, tours, encampment, and use of consultations as well as meetings to provide information, advice, and guidance on problems of individual families or those of organizations.

Home Economics and Extension Service Council members again gave generously of their time in furtherance of the program. The 15th Williamson-Babb Scholarship was awarded to Jane Callahan of Portsmouth. Through the cooperation of both volunteer and professional people the Extension Home Economics program made a contribution to human and community resource development in Rockingham County.

4-H YOUTH DEVELOPMENT

Two thousand three hundred and eighty-seven youth between the ages of 9 and 19 in Rockingham County are actively "Making Tomorrow Happen" by participating in 4-H Youth Development programs and activities. These youth are part of a 3½ million 4-H member extension family in the United States that is an

educational program sponsored by the Cooperative Extension Service, and is geared to the four-fold development of an individual — head, heart, hands and health, striving to “make the best better”.

Our active 4-H program in Rockingham County can be attributed to the dedicated service of 361 local leaders who advise members in selecting and teaching project work, ranging from the traditional agriculture and home economics oriented projects to automotive, public speaking, safety, health, electricity, entomology, photography, science rocketry, music, recreation, etc. The new emphasis in project selection is for the 4-H member to have individual projects where the youth identifies goals, plans for action, and then evaluates his progress on any topic of interest to the member. In this way 4-H is reaching inner city and suburban youth as well as those in the more rural sections of the county and our nation.

Youth activities continue in 4-H with camping, fairs, dress revues, demonstration days, public speaking contests, conferences on state and national levels, and teen 4-H council activities leading the list of favorite learning by doing experiences. The end program of our active 4-H program are youth better prepared to accept the responsibilities of being active citizens who really care about the future.

FOREST RESOURCE DEVELOPMENT

The County Forester and his Assistants visited 378 Rockingham County land-owners during the 1969 fiscal year. The area involved, totaling 320,000 acres, received recommendations for timber management through selective cuttings, improvement practices and reforestation.

Statistical accomplishments are as follows: 201,500 seedlings planted, 113 acres of trees pruned, 465 acres of timber stand improvement, and 1,153,000 board feet of timber was cut on 170 acres of land.

In addition, requests for help in recreational and wildlife management have been answered by the County Forester and Extension Specialists in Durham.

Informational activities, including programs, tours, demonstrations, news releases, articles and radio programs have reached 89 in number. A gradual increase in this number has been seen since 1964. The increase is a resultant of the inability of the limited work force to meet individual demands. Information through mass media is required to reach as many people as is possible. A monthly news letter has recently been initiated.

Of all statistics available, those in the miscellaneous category are most significant. There was a total of 179 during the last fiscal year. Miscellaneous requests have been answered pertaining to insect and disease problems in shade trees, questions of taxation, aerial photo interpretation, land evaluation, care and planting of lawn ornamentals, pollution problems, etc. These assists take much of the time previously given to the assistance to wood lot owners. It can be expected that changing forest values, increased population, and the diversity of changing land use policy will greatly increase the number of miscellaneous assists.

Mr. Knowles, County Forester, has been granted sabbatical leave in order to gain insight into the problems of urban oriented populations. Because of increased ecological problems in our urban environments a concerted effort will be made by this office to work with metropolitan and suburban areas.
